SOLUTION

MINDSET

Embracing Agile Mindset, Driving Transformation

Course Overview

This course is designed to equip participants with the knowledge, skills, and practical techniques to manage projects using Agile methodologies effectively. This hands-on course provides a deep dive into the principles, practices, and frameworks that enable successful Agile project management. During the course, participants will learn how to apply Agile principles to project planning, execution, monitoring, and adaptation.

3-DAYS

AUDIENCE

Project Teams seeking hands-on Agile project management application

Learning Outcomes

1. Apply key values, principles and practices of Agile project management.
2. Apply Agile methodologies like Scrum and Kanban to manage projects effectively.
3. Develop the skills to create user stories and backlogs, conduct sprint planning and retrospectives, risk mitigation, and track progress using Agile metrics.
4. Explain how to work with cross-functional teams and manage stakeholder expectations in an Agile environment.
5. Address common challenges that arise in Agile projects.
6. Practice using tools and templates commonly used in Agile project management.
7. Develop the ability to apply Agile project management methods to a real-world project.
8. Develop skills to communicate progress and results to stakeholders in an Agile environment.

BENEFITS vs LOSS*

BENEFITS IN PARTICIPATING

- **Alignment** with business
- **Delivery** Predictability
- **Engaged** stakeholders
- **High-performing** teams
- **Improved** Productivity metrics
- **Improved** Quality
- **Improved** Visibility of Outcomes
- **Improved** Adaptability
- **Lower** risks
- **Satisfied** Customers

CERTIFICATION

BEGINNERS

LOSS IN NOT PARTICIPATING

- **Difficulty** in managing change
- **Inability** to manage expectations
- **Increased** cost due to rework and delays
- **Inability** to manage VUCA circumstances
- **Lack** of clear goals and priorities
- **Lack** of collaboration
- **Poor/Negative** outcome
- **Poor** morale and performance
- **Poor** communication

*based on survey results from the 16th State of Agile Report, 2022

Outline

Topic	Learning Outcome	Description
All About Agile	1, 2	Overview of Agile Project Management, its history, principles, values, practices and methodologies
Agile Analysis and Design	3	Critical skills and practices required to effectively analyze, plan and design products/outcomes
Agile Estimation	3	Estimate the size and effort of work items
Agile Prioritisation	3	Critical skills and practices required to prioritize work items
Agile Metrics	8	Critical skills and practices required to measure the progress and success of outcomes
Agile Communication & Interpersonal Skills	4, 8	Critical skills and practices required to effectively communicate and collaborate with stakeholders, customers, and team members
Agile Monitoring	8	Critical skills and practices required to monitor progress and outcomes
Agile Risk Management	3	Critical skills and practices required to identify, assess, and manage risks in an Agile project
Process Improvement and Product Quality	5	Critical skills and practices required to continuously improve development processes and ensure product/outcome quality
Role Playing	5	Agile roles - Do and Don'ts
Agile Project Simulation	2, 3, 5, 6, 7, 8	Hands-on experience in managing an agile project from start to finish. Using a project simulation, students will apply agile principles and practices, including Scrum, Lean, and Kanban, to plan, execute, and deliver an Agile product/outcome in a simulated environment

I attended the Agile Project Management in Practice. Although I've had experience in Agile over a number of years, I did not have a solid grounding which this training provided me. I saw the link, the connection and it enriched my experiences. We have had lots of hands-on activities with team exercises which was super useful.

I attended the PMI-ACP Exam Prep course. It was very well taught despite being 100% virtual. Dr Sanath made the class interactive and interesting, providing real-world examples. I was supported inmy certification journey beyond the class with study group, live whatsapp chat support, reading materials, live portal, mock quizes, etc. I am happy that I obtained my PMI-ACP certification in the following month. Thank you Dr. Sanath!!
