PMI-ACP
# EXAM PREP

EARN THE WORLD'S MOST CREDIBLE AND RECOGNIZED AGILE CERTIFICATION

Embracing Agile Mindset, Driving Transformation

Course Overview

The PMI-ACP Exam Prep certification course is designed to provide professionals with a comprehensive understanding of Agile methodologies and practices, as well as prepare them for the PMI-ACP certification exam. This certification is highly recognised in the industry and demonstrates an individual's expertise in Agile project management. The course covers a wide range of topics, such as Agile project initiation, Agile planning, Agile project execution and delivery, Agile stakeholder engagement, and Agile problem detection and resolution. Participants will also learn about Agile metrics and how to use them to track project progress and team performance.

What will Participants GAIN? 🔥 🔥 🔥

» **Delivered by Atlassian Community Leader**

» **Pre-Training Baseline Agile Awareness Survey**

» **60 Days WhatsApp Support**

» **Simulated online test bank with over 500 Questions**

BENEFITS vs LOSS*

BENEFITS IN PARTICIPATING

- **Alignment** with business
- **Delivery** Predictability
- **Engaged** stakeholders
- **High-performing** teams
- **Improved** Productivity metrics
- **Improved** Quality
- **Improved** Visibility of Outcomes
- **Improved** Adaptability
- **Lower** risks
- **Satisfied** Customers

BEGINNERS

LOSS IN NOT PARTICIPATING

- **Difficulty** in managing change
- **Inability** to manage expectations
- **Increased** cost due to rework and delays
- **Inability** to manage VUCA circumstances
- **Lack** of clear goals and priorities
- **Lack** of collaboration
- **Poor/Negative** outcome
- **Poor** morale and performance
- **Poor** communication

*based on survey results from the 16th State of Agile Report, 2022

3/4-DAYS

Learning Outcomes

1. Apply agile principles and mindset within the context of the project team and organisation.

2. Explain how to deliver valuable results by producing high-value increments for review, early and often, based on stakeholder priorities.

3. Explain how to engage current and future interested parties by building a trusting environment that aligns with their needs and expectations.

4. Explain how to create an environment of trust, learning, collaboration, and conflict resolution that promotes team self-organisation.

5. Explain the need for an evolving plan, from initiation to closure, based on goals, values, risks, constraints, stakeholder feedback, and review findings.

6. Explain how to identify problems, impediments, and risks and prioritise to resolve them in a timely manner.

7. Explain how to improve the quality, effectiveness, and value of the product and the process.

8. Attempt certification-type questions to prepare for the PMI-ACP exam using an automated online test bank.

Additional Value 🔥 🔥 🔥

» **Pre-Training Engagement**

» **Post-Training 1/2 Day PMI-ACP Exam Prep Session**

» **Progress Tracking**

» **Learning Management System (LMS)**

I attended the Agile Project Management in Practice. Although I've had experience in Agile over a number of years, I did not have a solid grounding which this training provided me. I saw the link, the connection and it enriched my experiences. We have had lots of hands-on activities with team exercises which was super useful.

I attended the PMI-ACP Exam Prep course. It was very well taught despite being 100% virtual. Dr Sanath made the class interactive and interesting, providing real-world examples. I was supported in my certification journey beyond the class with study group, live whatsapp chat support, reading materials, live portal, mock quizes, etc. I am happy that I obtained my PMI-ACP certification in the following month. Thank you Dr. Sanath!!
